

## CALL FOR ENTRIES:

In correlation with Dead Flowers: Haunted Gardens Seeded Wastelands, Eyedrum is hosting a Film and Video night exploring lifecycles. The focus of your submission is open to your interpretation, but in accordance with the gallery shows we strongly encourage short experimental works dealing specifically with “the cycle of life/death/rebirth in the garden, including the Memorial Garden (cemetery), Victorian floriography (The Language of Flowers), vanitas, sterile corporate gardens, plastic flowers and genetically modified flora, as well as other botanical mysteries.” VHS and DVD are accepted for review. If accepted, all formats can be screened. Please do not send master copies. Deadline for entries is November 1<sup>st</sup> 2007. Send all entries (make sure to include your submission information form AND SASE if you would like your submission returned to you)
